

K-LOVE serves us locally by providing a positive listening alternative and positive morals for our children. It is wrong for you to displace current FM broadcasting stations that have established themselves here in the area. To get rid of KLove would be a disservice to everyone. There is so much garbage from other stations that k-love is one of the only stations we will allow our children to listen to. If you choose to change things then we will be forced to not ever listen to the FM radio and only listen to "Sirius" instead.
